Subject: SC needs Uber

Dear PSC -

Uber has been an invaluable asset for both locals and visitors to the city of charleston. As a business owner, I rely on Uber to provide quick and friendly service to myself and my guests. For years, I would hear comments from friends and visitors wondering why SC does not have Uber. Taxi are unreliable and provide pathetic customer service. Uber has improved the experience for guests of our state and banning it is a sign of appeasing the entrenched interest of taxi companies. There may be other reasons given, but the perception will remain that this is a backroom deal to protect the interests of those existing players. If they provided worthwhile service, customers would continue to use them, instead of Flocking to Uber.

I urge you to immediately reverse your order and work with uber to resolve any legitimate concerns you have.

Signed
Michael Shemtov
Charleston Business Owner & SC resident

I use Uber all over the country. It is safe, clean, affordable and convenient. It reduces the risk of drunk driving accidents and provides employment to those in our community. As a homeowner in Myrtle Beach, I ask that you not disadvantaging the public by not allowing this option for transportation.

Thank you.

Keep UBER. It's nice to get into a clean automobile! Unlike a cab.

To whom it may concern,

I wanted to send a quick email to complain about the recent sanctions calling for Uber to shut down in South Carolina. I use Uber regularly because the cab drivers gouge your pockets in Charleston, SC and overall have terrible service.

I worked at a hotel in downtown Charleston, as well as on Isle of Palms as a bellman/vallet driver. I had to deal with organizing transportation for patrons regularly. The quality of service in Charleston is atrocious as I witnessed firsthand. The drivers are bad businessmen who would do anything to cut each other out of rides and business. They bribe and pay kickbacks to hospitality workers left and right to scam other companies out of rides. They also constantly lie about arrival times.

Uber has much more polite drivers, overall better service, pick up time, nicer vehicles, offers accurate times, and most importantly makes it an affordable way to save miles on my own vehicle as well as travel safely at reasonable prices. I disagree with your sanctions and feel that Uber should be allowed to continue their services in SC.

Thank you,
Colin Michael Spann
Mount Pleasant, SC
